# MOTIVATIONAL MONDAYS

BY PRINCIPAL RICHARD MONTEIRO

THE ABILITY TO SET GOALS,  
REVIEWING YOUR PROGRESS AND  
REVISING YOUR STRATEGIES  
EVENTUALLY  
LEAD TO  
ACCOMPLISHMENTS &  
ACHIEVEMENTS

Hello, dear students!

The driving thought that we always have in our minds is being successful in all tasks undertaken. This calls for setting short term goals and striving dedicatedly to accomplish those.

It's like climbing the *goal ladder*, each time you achieve your target you step on to the next rung and finally towards your main goal/success at the top rung of the ladder.

Once you visualize your goals, set an action plan, review your process and ask yourself, have I done my best?

Success is nothing but just believing in your goals, and being determined.

Once you are few rungs up the ladder, the targets seem easier to be achieved.

## Our life during pandemic

Our lives have been changed a lot by the Covid-19 pandemic. Hundreds of thousands of people all around the world have died. We had to stay at home and attend online classes, we were allowed to go outside only during any necessity or any emergency by taking safety precautions like wearing mask etc. Sanitization was must. Even after meeting our friends, we weren't able to hug them, we missed our school whenever we remembered all the good times spent with our friends and teachers.
