MOTIVATIONAL MONDAYS

By Principal Richard Monteiro

Every sunrise is a fresh start... a new page to be written in your school life

Happy Monday! dear Students, A new morning is a new beginning and a new hope. We all need to give full efforts and have the perseverance to achieve our goals and always do remember that there isn't any shortcut to achieve success.

A small positive thought can change our whole day, and starting your day with positive thoughts and discipline can change your life.

With the exams approaching, my message to you is to plan your day effectively and to complete all your assignments and revision tasks without any delay.

WE ARE CELEBRATING 'GREEN WEEK' IN OBSERVANCE OF WORLD WILDLIFE DAY

THEME OF THE MORNING ASSEMBLY

SAVING NATURE IS SAVING OURSELVES

THOUGHT FOR THE WEEK
TIME TO RETHINK AND RESTORE OUR NATURE. TOGETHER WE CAN AND WE WILL

Activity: The Green Hotspots Global Biodiversity Hotspots

Right from highlighting the importance of biodiversity, students need to talk about the most critically endangered species of wild fauna and flora, and suggest measures and solutions to conserve them.

For smaller grades: Exploring more about biodiversity, flora and fauna, protecting wild animals.

On their assembly days, students can wear Green T- Shirts.

In 2022, World Wildlife Day is observed to create awareness about the imperative need to reverse the fate of the most critically endangered species, to support the restoration of their habitats and ecosystems and to promote their sustainable use by humanity.

LET'S READ & DISCUSS:
READ ABOUT THE UAE'S EFFORTS TO FULFILL THE SDG 'LIFE ON LAND' ON THE UAE'S SDGS PORTAL. STUDENTS CAN INCLUDE THIS INFORMATION IN THEIR TURN ON ASSEMBLY DAYS.

Reading Post

A teacher and student bond with each other in the academic journey.

Feelings are abstract but one can express this in millions way viz. happy, sad, excited and so on.

This has an everlasting impact on each other's mind and memories. They express themselves through drawing, painting and words.

Having said that, I as a teacher can gauge the feelings of the students by the way they express themselves. This bond of feelings helps you reach where the heart sits.
