# CONTENTS

# PRINCIPAL'S MESSAGE

**ENSURING HIGH QUALITY EDUCATION WHICH MOTIVATES AND EMPOWERS OUR STUDENTS TO BE LIFELONG LEARNERS AND PRODUCTIVE MEMBERS OF SOCIETY.**

At City Private School education is not just the amount of information that is put into a child's brain but one that caters to the individual needs of our students.

Department discussions and staff meetings enable matters of curriculum and organization to be discussed in depth, facilitate the induction of younger members of the profession, and help to limit the isolation of the teacher within the classroom.

With the growth of team teaching and interdisciplinary work, and the reinterpretation of the teacher's role as an organizer and manager of learning resources rather than a solo performer on the classroom stage, its important that the teacher must adjust to new developments in educational technology and the growth of human knowledge.

**PRINCIPAL RICHARD MONTEIRO DURING HIS TRAINING SESSION ON SCHOOL INSPECTION FRAMEWORK**
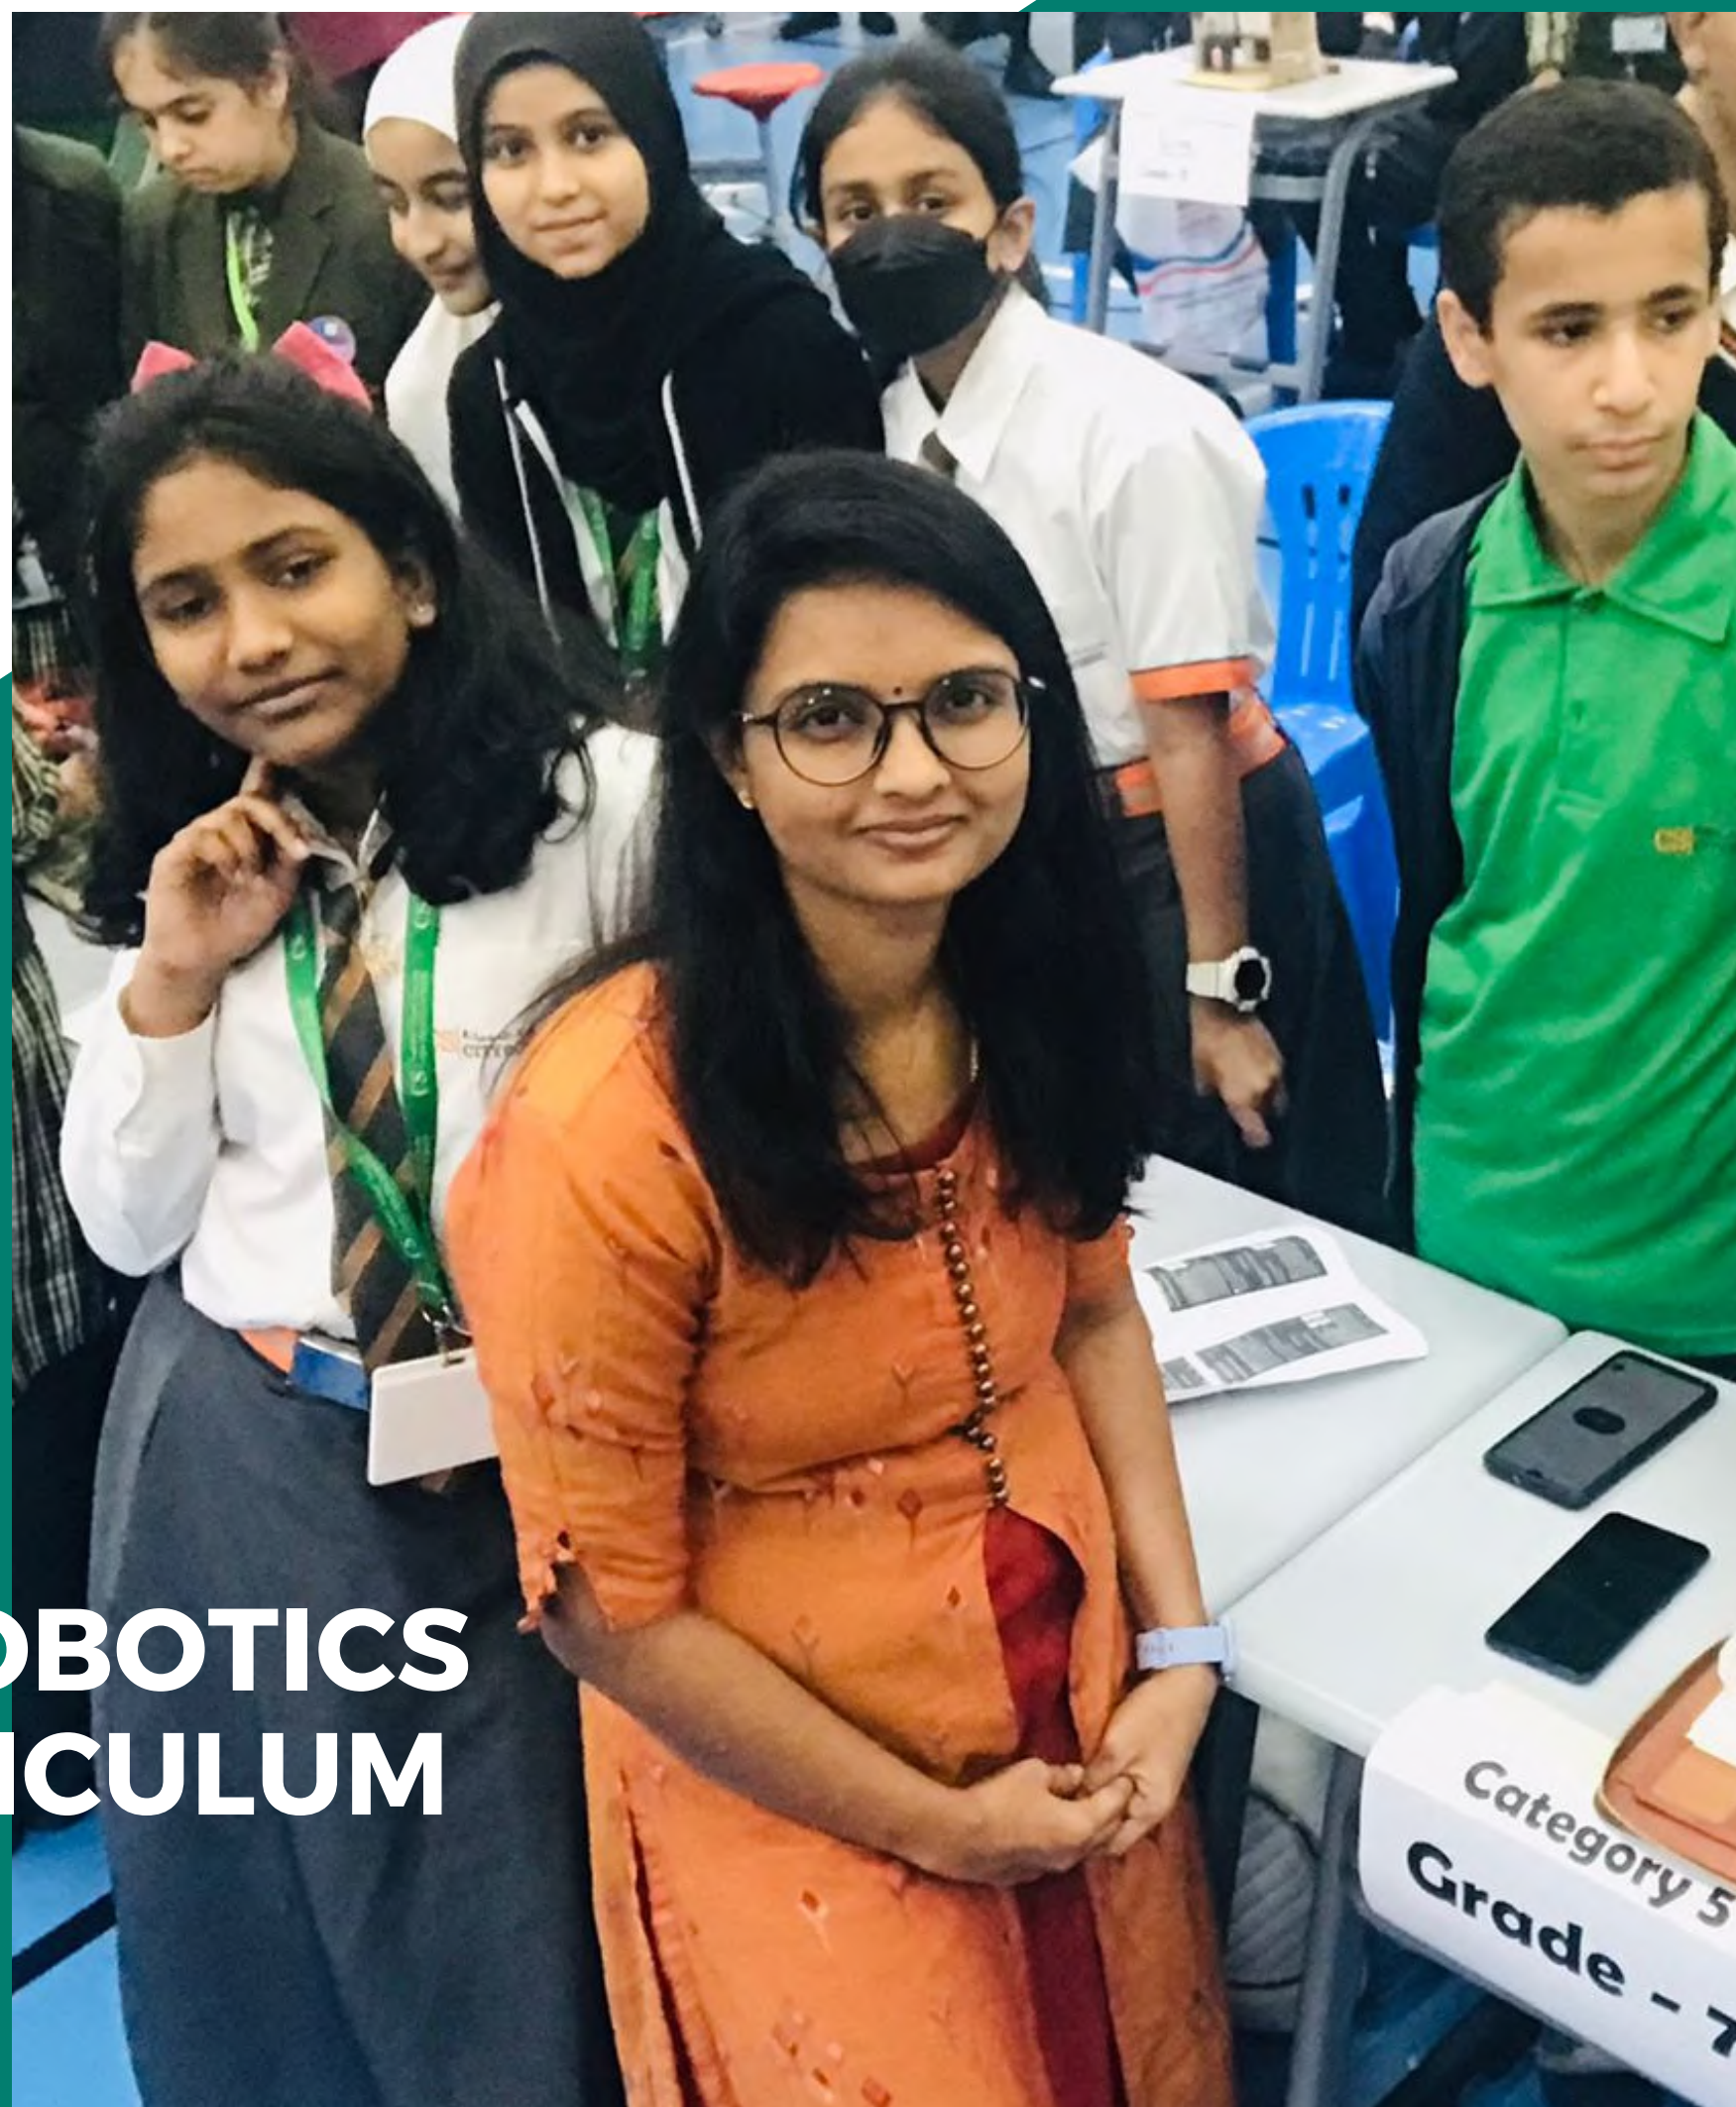

# INTER - SCHOOL PARTICIPATIONS

## IMPROVING INNOVATIONS AND CRITICAL THINKING SKILLS

## INCORPORATING ROBOTICS ACROSS THE CURRICULUM

School is a place to prepare students for future employment and work skills. Considering the recent developments in AI and automation, robots will be a crucial part of the future.

Our Robotic classes led by Ms Suganya, help students to acquire the basic skills which will be required to be competent and competitive in future workplaces.

Recently a group of our students participated in the Inter School Competition, **Techtonics 2023** and performed extremely well.

# PERSONAL, SOCIAL & EMOTIONAL DEVELOPMENT

In their activities together children learn to cooperate, asserting their own ideas and taking account of each other's viewpoints.

# COMMUNICATION & LANGUAGE

Students use vocabulary related to the tasks given to them and explore the connections in other places and times.

Miral Mohamed 1F

# LEARNING TO BE WITH OTHERS
# USING SPORT TO DEVELOP EMPATHY

Sports' activities teach children the importance of empathy and respect towards others. By putting themselves in others' shoes, children learn to understand and appreciate different perspectives. They also learn to respect opponents, teammates, coaches, and officials, regardless of the outcome of the game or activity.

# Learn the Ropes!

Apart from rope-handling skills and fitness, tug of war is the best game in building cognitive skills, team building   and coordination

# TUG OF WAR

The best teachers educate with
their hearts, not just their
minds

# TEAM BUILDING TRIVIA

## CLICK

THE EMPLOYEES OF THE SCHOOL HAD A UNIQUE YEAR END CELEBRATIONS BY ENGAGING IN A RANGE OF TEAM-BUILDING EXERCISES, SUCH AS PLAYING FOOTBALL AND ENTERTAINING GET-TOGETHERS.

# INTERACTIVE LEARNING OPPORTUNITIES

TRIP TO

## CROCODILE PARK

Grade 1

**Student Engagement**
Providing interactive learning opportunities to enhance retention of important information.
The students of grades 1 to 4 visited the Dubai Crocodile Park and explored the interactive experiences.

# VISIT TO COP28

# FROM FIRST SEED TO LAST HARVEST (AND BEYOND)

# ORGANIC GARDEN

Grade 5 BB

# CREATING A CULTURALLY RESPONSIVE LEARNING ENVIRONMENT

Not only does creating greater multicultural awareness and inclusion help students with different backgrounds and needs succeed, but it encourages acceptance and helps prepare students to thrive in an exponentially diverse world.
We prepare students to adapt to an evolving world and embrace those different from themselves. Students & Staff were dressed in their traditional costumes on the occasion of the Year- End celebrations and also enjoyed the traditional delicacies.
