Your Dreams, Our Mission

CREATING A CULTURE
OF INNOVATION

Where Every Student is a Success Story

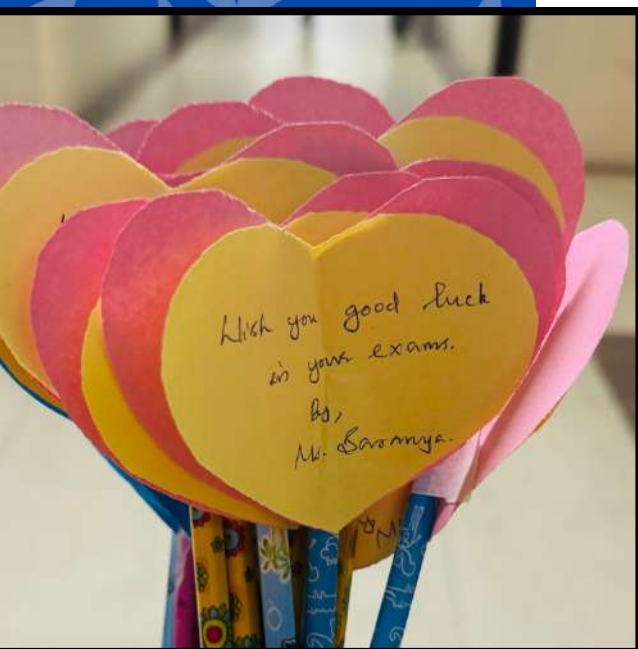

Our students have gained abundantly with the diverse range of events, topics, and activities related not only to their grade level curriculum but also extracurricular activities during the academic year with a common commitment to excellence, motivation, and inspiration.

By being the embodiment of the school's ethos and aspirations, they encapsulate the core values and mission of our institution.

In Pursuit of Excellence, these young minds have moved a step further in shaping their dreams into reality.

It's hard to believe that another school year has come to an end. Through good times and bad times, we've found new ways to show our love and support in our classrooms. We've found pockets of joy and overcome challenges with our students to cross the finishing line together.

Take pride in how far you've come. Have faith in how far you can go. But don't forget to enjoy the journey.

AMAZING NUMBERS

**MOHAMED NAHAS
DEPT. OF MATHEMATICS**

During my school days, I liked “Zero” very much because of my Maths Teacher (Late Mr. Prabhakaran, who passed away in Moolamattam Powerhouse blast on 21st June 2011). He always conducted surprise class Tests. If I get Zero out of 10, I would be happy not because I had performed bad but because of the strategy practiced by my teacher. Score Zero means I won't get any punishment as he gave the Scores in terms of punishments(mistakes). Those who solve all questions correctly will get 'Zero' score and won't have any punishment. Still, I count on those precious memories that no doubt help me to think out of the box to make my subject more interesting.

After completing my B.Ed., instead of 'Zero' the digit 'One' surprised me more. I had expected a First Class in the final Examination. I really was surprised when I came to know from my friend, that I had got Distinction. But I couldn't believe. In 2005, there was no online result verification for B.Ed.

So when I went to University for enquiry, they informed me that I had got 799 out of 1000. As per the university rule, they gave me 'One' mark as moderation, which changed my result to Distinction. That moment I realized once again the power of 1 mark.

SO, MY DEAR STUDENTS!

UNDERSTAND THE VALUE OF EVEN 'ONE' MARK AND WORK SMART FOR THE EXAMINATIONS. IT CAN REALLY CHANGE YOUR FUTURE.

PARENT TEACHER MEETING

The event witnessed around 85% attendance thus displaying enthusiastic interest among parents for the smooth working and progress of the school.
