### Welcome to the New Year, 2024!

We are excited and eager to have students back in school. We have missed them so much!

As the students come back, we take the first couple of days to help re-teach our curriculum, classroom and bus expectations.

In addition to promoting student safety, we help support and teach students about social and emotional learning. These are essential skills to help students when they are working together.

Extracurricular activities such as reading, sports, organic gardening, and literacy programmes give our kids lots of opportunity to explore their interests. Our communication system is so robust that students can contact us at any moment to talk about their objectives or ask for guidance.
