## PRINCIPAL'S MESSAGE

Dear Parents, Staff & Students,

I am proud of both the staff and students and congratulate them for their enthusiasm and dedication in this academic journey which is truly commendable. This is reflected in the increasing number of students at our school, outstanding academic results, and impressive achievements in co-curricular activities. These achievements are not limited to sports but also include organizing outdoor trips and indoor educational programs.

I wish everyone best of luck as we strive to achieve even greater milestones in the coming years. Remember, success is not the end. It is not about resting on past achievements, but about seeking new ones to attain. Let's continue working hard reaching for new heights.

**Communication and Language** encompasses everything that we do and express in all aspects of the children's learning. Through the sharing of stories, frequent and quality conversations, story-telling, role-play, rhymes, poems and songs the children will thrive in a language-rich environment and become confident using a range of vocabulary in different contexts.

**Physical Development**  
Through games and opportunities for play, both indoors and outdoors, we will support the children to develop their core strength, stability, balance, spatial awareness, co-ordination and agility. Together with activities that promote hand-eye co-ordination and fine motor control, the children are set for happy, healthy and active lives, as well as having the skills necessary for reading and writing.
